What is Metro Transport?

Metro Transport's mission is to provide quality transportation services for seniors and disabled adults living within the UJC MetroWest area regardless of their ability to pay for these services. Transportation is one of the largest problems faced by seniors and disabled adults living in this community and throughout the United States.

Metro Transport attempts to fill in the gap of service that remains beyond what county and state transportation programs can provide. We encourage seniors who shouldn't be driving to voluntarily give up their driver's licenses. Metro Transport strives to provide a high level of service to our frailest population and to provide all services with the utmost care and kindness.

Our Service Area is Essex, upper Union, and lower Morris Counties
