NJ Apartment Association

An Equal Housing Opportunity Provider

I hope this update finds you safe and well. We realize that the holidays are upon us and this is a time to gather with others. **Your health and safety is our primary focus and concern!** We continue to adapt our policies and practices as the COVID-19 virus spreads and increases in New Jersey. The New Jersey Department of Health has again restricted indoor visitation for Long-Term Care facilities which includes Assisted Living Residences.

The last ten months have been the most difficult time of all of our lives. Our residents have been deprived of the constant interaction with family and loved ones, reduced activities, dining in their living quarters and limited interaction with team members and other residents. Our team members have been working hard to ensure resident safety by constant review of protocols and practices, working despite fears and anxiety to care for our residents and their families. We are very proud of our team members as they too socially distance and limit any activities in their personal lives to assure our residents and their safety. All of us together keep each other safe and all of us are giving up the life that we once knew in order to reduce the spread of the virus. Our team members are HEROES and so are all of you for following these directives.

Reminders:

- Our Covid Resource tab on our website is updated regularly with the most accurate information.

We continue to be available by phone or email as your safety and health concerns are a top priority and we appreciate your participation with this communication. Please direct questions and concerns to me at (973) 929-2747. If you need immediate assistance, please call the main number at 973-929-2700.

Thank you,

Anna Burke, Administrator
